Sleepeeze

ESTABLISHED 1924

FUSION PRO

800 Zoned Pocketed Springs

Unique barrel-shaped springs that are zoned to target key pressure point areas of the body, moving independently and contouring to your individual weight and shape for optimum support, posture and comfort.

Graphite Infused Memory Foam

A unique cell structure allows air and moisture to pass through, with Graphite helping to remove heat from the surface and disperse it away from the body to help keep you cooler.

This is combined with a layer of super soft memory foam that offers a soft surface that allows for full body-contouring and its slow response lowers bounce.

Edge to Edge Support

Encapsulated for superior support.

Single Sided

Low maintenance, easy care non-turn mattress that saves time and effort.

- Soft knitted cover
- Graphite infused memory foam
- Super soft memory foam
- Traditional pocketed springs
- Fully encapsulated side support
- Eco support pad
